Du blockchain platform as a service

Blockchain platform as a service.

The Stage 2 Gold Star Certification Highlights The Efficiency, Effectiveness, And Sustainable Nature Of Du's Blockchain EDGE Service Capabilities, as well as the organization's Assurance, and Risk (STAR) Registry Standards. Alia, intelligent contracts can be developed in JavaScript, Java and GO languages. Implement only the Blockchain components that you need (peer, request service, certification authority), manage all network components through of a Afan's console and keep the complete control on identities, reasons-reasons and intelligent contracts. * READ OR DISCLAIMER * Du's Blockchain Platform was improved based on two years of feedback from more than 500 customer engagements, from large companies to entrepreneurs. Part Of The Blockchain Platform A Service (BPAAS), Document Attestation Solution Uses Contract Capabilities That Will Facilitate And Automate The Process Of Attesting Any Document By Governmental Entities. This includes shared Infrastructure and Document Management, Which Will Adopt and facilitate the Current Process of Any Organization by Making It more Secure, Easy and Immutable on Blockchain. Find out how to develop, operate and manage your network blockchain with corporate production capabilities in Hyperledge Fabric. Experiment to IBM Blockchain Platform for 30 days without cost using Red Hat, OpenShift, etc. By Building On Top of Our BPAAS, Du's New Use Cases Are An Important Step Towards Providing Smart Solutions That Create Efficiencies for Government Transactions Leading Up To 2021. Solutions That Will Usher in the Region's Digital Future - Through Its Partnership With Consensus, Leading Blockchain Solutions Provider and Venture Production Studio, Du Is Building Applications and offering an integrated set of solutions to the Blockchain ecosystem. This solution displays a digital inspection checklist that can be completed and the inspector will assign a number of signatories to approve / reject the form to generate the license in the end. Together with the consensus, du will play a leading role in the leverage of emerging technology to contribute to the business growth and the fulfillment of Dubai's blocking strategy. By delivering the intelligent city infrastructure of the last generation, government communications solutions, government communications, secure data solutions, or the best at home entertainment and value, we are a trustworthy Telco and TIC Player Molding the future of communication for a more connected future tomorrow. http://du.ae Send us your press releases for pressRelease.zawya@refinitiv.com and press Press Release 2022 October 15, 2018 Press Release BPAAS I will host confident blockchain solutions
